Research Q1 Answered

Any setbacks/roadblocks you experienced:

Working on the slides took longer than I anticipated so I was unable to get more coding done

What you plan to work on next:

Perform more data cleaning to reconcile the differences between the neighborhoods names in the two datasets.

Are you on track? If not, how will you get back on track?

I am behind of where I want to be. I will be working over spring break to get back on track.
